Checklist for Adult Sponsor (1)

This form is required for ALL projects.
This form must be completed by the adult sponsor BEFORE experimentation.

To be completed by the Adult Sponsor in collaboration with the student researcher(s):

Student's Name(s):

Project Title:

1. ☐ I have reviewed the ISEF rules and guidelines, including the science fair ethics statement.
2. ☐ I have reviewed the student's completed Checklist (1A) and Research Plan/Project Addendum.
3. ☐ I have worked with the student and we have discussed the possible risks involved in the project.
4. ☐ The project involves one or more of the following and requires prior approval by an SRC, IRB, IACUC or IBC:
   - ☐ Humans
   - ☐ Vertebrate Animals
   - ☐ Potentially Hazardous Biological Agents
     - ☐ Microorganisms ☐ rDNA ☐ Tissues
5. ☐ Items to be completed for **ALL PROJECTS**
   - ☐ Adult Sponsor Checklist (1)
   - ☐ Research Plan/Project Addendum
   - ☐ Student Support Disclosure Form (2A)
   - ☐ Student Checklist (1A)
   - ☐ Approval Form (1B)
   - ☐ Regulated Research Institutional/Industrial Setting Form (2C) (when applicable; after completed experiment)
   - ☐ Continuation/Research Progression Form (7) (when applicable)

Additional forms required if the project includes the use of one or more of the following (check all that apply):

☐ **Humans,** including student designed inventions/prototypes. (Requires prior approval by an Institutional Review Board (IRB); see full text of the rules.)
- ☐ Human Participants Form (4) or appropriate Institutional IRB documentation
- ☐ Sample of Informed Consent Form (when applicable and/or required by the IRB)
- ☐ Qualified Scientist Form (2B) (when applicable and/or required by the IRB)

☐ **Vertebrate Animals** (Requires prior approval, see full text of the rules.)
- ☐ Vertebrate Animal Form (5A) - for projects conducted in a school/home/field research (SRC prior approval required
- ☐ Vertebrate Animal Form (5B) - for projects conducted at a Regulated Research Institution (Institutional Animal Care and Use Committee (IACUC) approval required prior experimentation.)
- ☐ Qualified Scientist Form (2B) (Required for all vertebrate animal projects at a regulated research site or when applicable)

☐ **Potentially Hazardous Biological Agents** (Requires prior approval by SRC, IACUC or IBC, see full text of the rules.)
- ☐ Potentially Hazardous Biological Agents Risk Assessment Form (6A)
- ☐ Human and Vertebrate Animal Tissue Form (6B) - to be completed in addition to Form 6A when project involves the use of fresh or frozen tissue, primary cell cultures, blood, blood products and body fluids.
- ☐ Qualified Scientist Form (2B) (when applicable)
- ☐ The following are exempt from prior review but require a Risk Assessment Form 3: projects involving protists, archae and similar microorganisms, for projects using manure for composting, fuel production or other non-culturing experiments, projects using color change coliform water test kits, microbial fuel cells, and projects involving decomposing vertebrate organisms.

☐ **Hazardous Chemicals, Activities and Devices**
- ☐ Risk Assessment Form (3)
- ☐ Qualified Scientist Form (2B) (as applicable; see full text of the rules)

☐ **Other**
- ☐ Risk Assessment Form (3)

☐ **I attest to the information provided above and that I have read and agree to abide by the science fair ethics statement.**

Adult Sponsor's Printed Name	Signature	Date of Review (mm/dd/yy)
Phone	Email	

Fit as much of the title as possible.

Actual signatures are required. Adobe e-signatures are acceptable. However, typed names will not be accepted in place of a signature.

The checkboxes should match the documents for your project.

This is the Science teacher NOT the parent or mentor.

This must be dated **BEFORE** the "Actual Start Date" on Form 1A.

Student Checklist (1A)

This form is required for ALL projects.
This form must be completed by the student(s) BEFORE experimentation.

1. a. Student/Team Leader: _____ Grade: _____

   Email: _____ Phone: _____

   b. Team Member: _____ c. Team Member: _____

2. Title of Project: _____

3. School: _____ School Phone: _____
   (if multiple schools, list of the team leader or list all schools).

School Address: _____

This should be the **teacher.**

4. Adult Sponsor: _____ Phone/Email: _____

5. Where will you conduct your experimentation? (check all that apply)
   ☐ Research Institution ☐ School ☐ Field ☐ Home ☐ Other: _____

A Form 2C is required for a mentor, even if virtual. The rules wizard will only add this if you select research institution or industry setting (place of business).

6. List the name and address of all non-home whether you worked there virtually or on-site:

Name _____

Address _____

Phone/email _____

This should be based on Form 1 responses.

7. Does this project need SRC/IRB/IACUC or other pre-approval? ☐ Yes ☐ No Tentative start date: _____

8. This year's experimentation/data collection:

This should be the date that the student started collecting data, after approvals.

Actual Start Date: (mm/dd/yy) _____ End Date: (mm/dd/yy) _____

IF the student has continued his/her project, their paperwork (except Form 7) should focus on the work from the current project cycle.

9. Is this a continuation/progression from a previous year? ☐ Yes ☐ No
   a. If yes, attach the previous year's ☐ Abstract **and** ☐ Research Plan/Project
   b. Explain how this project is new and different from previous years on
   ☐ Continuation/Research Progression Form (7); include forms for all previous years

10. Source of Data:
    ☐ self-collected ☐ mentor collected ☐ publicly available ☐ Other _____

Provide a complete Research Plan/Project Addendum with this form.

Research Plan/Project Addendum

A Research Plan/Project Addendum is required for ALL projects. The plan must be written BEFORE experimentation.

1. The Research Plan is to be written prior to experimentation.
2. If changes are made during the research before competing at an affiliated fair, such changes must be added as an addendum to the original plan. Be aware that some changes may require obtaining or returning to the IRB or SRC for appropriate review and approvals before conducting that portion of the project. If there are no changes, an addendum is not required.
3. The Research Plan/Project Addendum should include the following:
   a. **RATIONALE**: Include a brief synopsis of the background that supports your research question/goal.
   b. **RESEARCH QUESTION(S), HYPOTHESIS(ES), ENGINEERING GOAL(S), EXPECTED OUTCOMES**: Include a brief synopsis of the background that supports your research question/goal.
   c. Describe the following in detail (include any required subject-specific
      - **List of materials:**
      - **Procedures/Methodology:** Detail all procedures and steps of the collection, and when applicable, the source of data used. Be sure are to be taken by any supervising adult(s).
      - **Risk and Safety:** Identify any potential risks and describe safety pr
      - **Data Analysis:** Describe the procedures you will use to analyze th
   d. **ACKNOWLEDGEMENTS:** List all individuals that supported your proje document this support with a prompt log or an explanation of the ele
   e. **BIBLIOGRAPHY:** List major references (e.g. science journal articles, b all references are properly listed and verified (The use of AI for citation false citations which becomes an ethical issue if you cite sources that

Items 1–4 below are subject-specific guidelines for additional items to be in as applicable.

1. **Human participants research:**
   a. **Participants:** Describe age range, gender, racial/ethnic composition o pregnant women, prisoners, mentally disabled or economically disadv
   b. **Recruitment:** Where will you find your participants? How will they be i
   c. **Methods:** What will participants be asked to do? Will you use any surv did you obtain? Did it require permissions? If so, explain. What is the fr
   d. **Risk Assessment:** What are the risks or potential discomforts (physica participants? How will you minimize risks? List any benefits to society
   e. **Protection of Privacy:** Will identifiable information (e.g., names, teleph Will data be confidential/anonymous? If anonymous, describe how the are in place for safeguarding confidentiality? Where will data be stored the data after the study?
   f. **Informed Consent Process:** Describe how you will inform participants to do, that their participation is voluntary and they have the right to stop at any time.
2. **Vertebrate animal research:**
   a. Discuss potential ALTERNATIVES to vertebrate animal use and present justification for use of vertebrates.
   b. Explain potential impact or contribution of this research.
   c. Detail all procedures to be used, including methods used to minimize potential discomfort, distress, pain and injury to the animals and detailed chemical concentrations and drug dosages.
   d. Detail animal numbers, species, strain, sex, age, source, etc., include justification of the numbers planned.
   e. Describe housing and oversight of daily care.
   f. Discuss disposition of the animals at the end of the study.
3. **Potentially hazardous biological agents research:**
   a. Give source of the organism and describe BSL assessment process and BSL determination.
   b. Detail safety precautions and discuss methods of disposal.
4. **Hazardous chemicals, activities & devices:**
   a. Describe Risk Assessment process, supervision, safety precautions and specific methods of disposal.
   b. Safety Data Sheets must be reviewed and should be referenced but do not need to be submitted with paperwork unless required by your fair.

The research plan is the most important document because it provides the regional SRC board the necessary details of the planned research.

This detailed description of the research guides the Scientific Review Committee (SRC) to be able to determine if the proper forms were completed and if they contain the correct information.

It must be VERY detailed and clearly delineate the role of the student vs. the role of the mentor. Use the provided Research Plan template and save it as a PDF.

The entire Research Plan must be in FUTURE tense!!
It must include proposed and actual start and end dates.
It must include a detailed research plan.
It must have all work site information completed.
It must identify student and mentor role.
It must include any use of AI in the procedure, and AI use must be cited.

Approval Form (1B)

This form is required for ALL projects (one form per student).
This form must be signed by the student researcher and parent BEFORE exp
The SRC will sign as appropriate for pre-approval and/or approval just before

Every student needs their own Form 1B (including teams). **Actual signature or Adobe e-signature required, NOT a typed name.**

1. To Be Completed by Student and Parent

a. Student Acknowledgment:

- I understand the risks and possible dangers to me of the proposed research plan.
- I have read the ISEF Rules and Guidelines and will adhere to all International Rules when conducting this research.
- I have read and agree to uphold all aspects of the student researcher ethics statement.

Student researchers are expected to maintain the hi egrity. Scientific fraud and misconduct are not condoned at any level of resear clude but are not limited to plagiarism, forgery, use or presentation of other res rication of data. Fraudulent projects will fail to qualify for competition in affiliate

This must be dated **BEFORE** the "Actual Start Date" on form 1A.

Student's Printed Name	Signature	Date Acknowledged (mm/dd/yy) (Must be prior to experimentation.)

b. Parent/Guardian Approval: I have read and understand the risks and possible dangers involved in the **Research Plan/Project Addendum**. I consent to my child participating in this research.

Parent/Guardian's Printed Name	Signature	Date Acknowledged (mm/dd/yy) (Must be prior to experimentation.)

2. To be completed by the local or affiliated Fair SRC

(Required for projects requiring prior SRC/IRB approval. Sign 2a or 2b as appropriate.)

a. Required for projects that need prior SRC/IRB approval BEFORE experimentation (humans, vertebrates or potentially hazardous biological agents).

The SRC/IRB has carefull an/ **Project Addendum** and My signature indicates ap t **Addendum** before the st

This must be signed if the student's project requires SRC or IRB approval (Forms 4, 5A, or 6A) and the student did **NOT** work at a research institution. Signed if box 1 of Section 3 is checked on form 6A.

SRC Chair's Printed Nam	
Signature	Date of Approval (mm/dd/yy) (Must be prior to experimentation.)

OR

b. Required for research conducted at all Regulated Research Institutions with no prior fair SRC/IRB approval.

This project was cond (**not home or high sch** by the proper institutio complies with the ISE **institutional approval**

This must be signed if the student's project does **not** require SRC or IRB approval (Forms 4, 5B, or 6A) and the student did work at a **research institution**. Signed if box 2, 3 ,4 of Section 3 is checked on form 6A.

SRC Chair's Printed Name	
Signature	Date of Signature (mm/dd/yy) (May be after experimentation)

3. Final ISEF Affiliated Fair SRC Approval (Required for ALL Projects)

SRC Approval After Experimentation and Before Co onal/State/National Fair
I certify that this project adheres to the approved **R Addendum** and complies with all ISEF Rules.

Do NOT write anything in this space. The regional and/or state SRC signs here.

Regional SRC Chair's Printed Name		Date of Approval (mm/dd/yy)
State/National SRC Chair's Printed Name *(where applicable)*	Sig	Date of Approval (mm/dd/yy)

Student Support Disclosure Form (2A)

This form is required for ALL projects. This form may be completed before or after experimentation.

It is important to fully disclose any support provided in the completion of a scientific research project. This disclosure provides acknowledgment and verification of the project.

To be completed by the student researcher:

Please list the person serving in each role. (Described in the Roles & Responsibilities of Students and Adults section of the Rules.) If an individual serves in multiple roles, list fully once and by name only in other roles.

1. **Adult Sponsor**			
Name	School	Email	Phone
Relationship to student:	Expertise:	Contribution to project:	Duration of support for this project:

This is the **TEACHER**

2. **Direct Supervisor**			
Name			Phone
Relationship to student:		ution to project:	Duration of support for this project:

This is the person who **monitors the experiment process**. Can be teacher if at school, parent if at home, scientist or lab technician if in a lab**.**

3. **Qualified Scientist**			
Name			Phone
Relationship to student:		o project:	Duration of support for this project:

Applies to some projects that require extra supervision. Must have a graduate degree in the same area of study as the research project**.**

4. **Additional Supporting Adults** (graduate students, relatives, external experts, etc.) Use additional pages as necessary.			
Name	Organization/School	Email	Phone
Relationship to student:	Expertise:	Contribution to project:	Duration of support for this project:

Paid Support Disclosure:

1. Did you or your parents pay for any support for this project? ☐ Yes ☐ No
   If yes, explain: (Indicate any fees, tuition and/or payment to any of the individuals above and/or to a program that provided any support for this project including lab space, mentorship, documentation preparation, etc.)

AI Usage Disclosure

1. Did your project involve the use of Generative AI? ☐ Yes ☐ No

   If yes, please provide an attachment with Generative AI used in your project and in what elements of your project it was used.

   a. Please provide the AI Prompt Log containing the prompts and responses from the Generative AI or AI Wrapper used. Be sure to remove any personal prompts which contain personal identifying information about yourself or others. If you do not have access to your prompt log, then please provide a summary of the prompts and responses involved in your project.

Attestation by Student Researcher:

I certify that I have presented the full truth regarding all of the support received in the completion of my research project and have not omitted pertinent information nor presented false information.

Finalist Signature: _____ **Date:** _____

Printed Name: _____

Student signs here!

Qualified Scientist Form (2B)

This form is required for projects requiring a ~~Qualified Scientist or Direct Supervisor~~.
This form must be completed by the Qualified Scientist BEFORE experimentation.

Student's Name(s) _____

Title of Project _____

To be completed by the Qualified Scientist:

Scientist Name: _____

Educational Background: _____ Degree(s): _____

Experience/Training as relates to the student's area of research:

_____ _____

Position/Institution: Email/Phone:

1. Please indicate what the student project will involve:
   a. Human participants ☐ Yes ☐ No
   b. Animals ☐ Yes ☐ No
   c. Potentially hazardous biological agents (microorganisms, rDNA and tissues, including blood and blood products) ☐ Yes ☐ No
   d. Hazardous substances and devices ☐ Yes ☐ No
3. Will this study be a sub-set of a larger study? ☐ Yes ☐ No
4. Will you directly supervise the student? ☐ Yes ☐ No
5. Please describe your anticipated role in this project and the duration of your support.

New question 2027

6. Will you provide any data; if yes, please provide source or describe ☐ Yes ☐ No

To be completed by the Qualified Scientist:

I certify that I have reviewed and approved the Research Plan/Project Addendum prior to the start of the experimentation. If the student or Direct Supervisor is not trained in the necessary procedures, I will ensure her/his training. I will provide advice and supervision during the research. I have a working knowledge of the techniques to be used by the student in the Research Plan/Project Addend

This must be dated **BEFORE** the "Actual Start Date" on Form 1A.

Institution | Date Signed (must be after experimentation) (mm/dd/yy)

Education/Experience/Training | Email/Phone

From completed by the **Mentor or Business Manager**

This should be the **Mentor or Business Manager** (industry site).

If any of the research was done at a standard **research facility** (college, pharmaceutical company, environmental testing facility, etc.), a facility where advanced research is allowed (certain high schools or local labs), or an **industry setting or other place of business**, the 2C form is **required**.

If the student **worked with a mentor** (virtual or on-site) other than the science teacher, the 2C Form is **required**.

If the project is to be a data analysis only and the data is publicly available, then a Form 2C is not needed unless the student received mentor support.

If data is covered by privacy rules/laws (ex. Patient data) or from a private source (ex. Proprietary data), then the student must show documentation of how the data became available and how/why they were allowed to view it and study it.

The best thing to do is have the mentor attach to this form a short letter on their letterhead explaining that there were no HIPAA violations. This is even if the data was de-identified.

If needed, this must be dated **AFTER** the "End Date" on Form 1A.

Risk Assessment Form (3)

This form is recommended for ALL projects; may be required for projects involving hazards, potentially hazardous biological agents or human participants. This form must be completed BEFORE experimentation.

Student's Name(s) _____

Title of Project _____

To be completed by the Student Researcher(s) in collaboration with Direct Supervisor/Qualified Scientist: (All questions must be answered; additional page(s) may be attached.)

1. a) List all hazardous chemicals, activities or devices to be used

   b) List all microorganisms to be used

2. Identify and assess the risks and hazards involved in this project.

3. Describe the safety precautions and procedures that will be used to reduce the risks. If you conducted field work, include permits received and safety plans, as applicable.

4. Describe the specific disposal procedures that will be used (when applicable).

5. List the source(s) of safety information.

To be completed and signed by the Direct Supervisor (or Qualified Scientist,
I agree with the risk assessment and safety precautions and procedures described above. I cer
Research Plan/Project Addendum and the International Rules, including the science fair ethics
direct supervision.

This must be dated **BEFORE** the "Actual Start Date" on Form 1A.

Direct Supervisor's Printed Name _____ Signature _____ Date of Review (mm/dd/yy) _____

Experience/Training as relates to the student's area of research

Position/Institution _____ Phone or email contact information _____

Human Participants Form (4)

This form is required for all research involving human participants. This form must be completed by the IRB BEFORE recruitment or data collection. (If research is done at an RRI, equivalent RRI IRB documentation is required.)

This form is to be filled out by the SCHOOL or DISTRICT IRB. Be sure that your school IRB is aware of the rules and limitations of student research projects.

For more information and the full list of rules: https://www.societyforscience.org/isef/international-rules/human-participants/

Student's Name(s)

Adult Sponsor

MUST BE COMPLETED BY STUDENT RESEARCHER(S) IN COLLABORAT SCIENTIST:

1. ☐ I have submitted my Research Plan/Project Addendum which a Research Plan/Project Addendum Instructions.
2. ☐ I have attached any surveys or questionnaires I will be using in my project or other documents provided to human participants.
   ☐ Any published instrument(s) used was /were legally obtained.
3. ☐ I have attached an informed consent that I would use if required by the IRB.
4. ☐ Yes ☐ No Are you working with a Qualified Scientist? If yes, attach the Qualified Scientist Form 2.

Determined if Form 2B is needed by IRB

BELOW – IRB USE ONLY

Must be checked for any research project using minors

stitutional Review Board (IRB) after review of the research plan. All questions must be answered for the approval to be urn paperwork to the student with instructions for modifications.)

ll Committee Review (3 signatures required) and the following conditions: **(All 6 must be answered)**

heck one) : ☐ Minimal Risk ☐ More than Minimal Risk (a risk assessment form 3 is required)

2. Qualified Scientist (QS) Required (Form 2): ☐ Yes ☐ No
3. Risk Assessment Required (Form 3): ☐ Yes ☐ No
4. Written Minor Assent and written parental permission required for minor participants: ☑ Yes ☐ Not applicable (No minors in this study)

Check **Yes** if project is More than Minimal Risk

5. Written Informed Consent required for participants 18 years or older: ☐ Yes ☐ No ☐ Not applicable (No participants 18 yrs or older in this study)
6. Facility for "protected groups" used, written approval has been obtained: ☐ Yes ☐ No

IRB SIGNATURES (All 3 signatures required) None of these individuals may be the adult sponsor, direct supervisor, qualified scientist or related to (e.g., mother, father of) the student (conflict of interest).

I attest that I have reviewed the student's project, that the checkboxes above have been completed to indicate the IRB determination and that I agree with the decisions above.

Medical or Mental Health Professional (a psychologist, medical doctor, licensed social worker, licensed clinical professional counselor, physician's assistant, doctor of pharmacy, or registered nurse) with expertise related to this project.

Human Informed Consent Form

This form is a suggested template for written informed consent.
All projects involving minors require written parental permission.

Instructions to the Student Researcher(s): An informed consent/assent/permission form should be developed in consultation with the Adult Sponsor, Direct Supervisor or Qualified Scientist.
This form is used to provide information to the research participant (or parent/guardian) and to document written informed consent, minor assent, and/or parental permission.

- When written documentation is required, the researcher keeps the original, signed form.
- Students may use this sample form or may copy ALL elements of it into a new document.

If the form is serving to document parental permission, a copy of any survey or questionnaire must be attached.

Student Researcher(s): _____

Title of Project: _____

I am asking for your voluntary participation in my science fair project. Please read the following information about the project. If you would like to participate, please sign in the appropriate area below.

Purpose of the project:

If you participate, you will be asked to:

Time required for participation:

Potential Risks (if any):

Potential Benefits (if any):

How confidentiality will be maintained:

If you have any questions about this study, feel free to contact:

Adult Sponsor/QS/DS: _____ Phone/email: _____

This is just an example of a consent form. You MUST submit a copy of whatever consent form will be used any ALL survey questions. If the survey will be done online, submit a copy of all of the consent questions as a part of that survey.

Voluntary Participation:

Participation in this study is completely voluntary. If you decide not to participate there will not be negative consequences. Please be aware that if you decide to participate, you may stop participating at any time and you may decide not to answer any specific question.

By signing this form I am attesting that I have read and understand the information above and I freely give my consent/ assent to participate or permission for my child to participate.

Parental/Guardian Permission (if applicable)

Date Reviewed & Signed: _____ (mm/dd/yy)

Parent/Guardian Printed Name: _____ Signature: _____

Vertebrate Animal Form (5A)

This form is required for all research involving vertebrate animals that is conducted in a school/home/field research site. SRC approval is required BEFORE experimentation.

Student's Name(s) _____

Title of Project _____

Actual signatures are required. Adobe e-signatures are acceptable. However, typed names will not be accepted in place of a signature.

To be completed by Student Researcher:

1. Common name (or Genus, species) and number of animals used.

2. Describe completely the housing and husbandry to be provided. Include the cage/pen size, number of animals per cage, environment, bedding, type of food, frequency of food and water, how often animal is observed, etc. Add an additional page as necessary.

3. What will happen to the animals after experimentation?

4. Attach a copy of wildlife licenses or approval forms, as applicable

5. The ISEF Vertebrate Animal Rules require that any death, illness or unexpected weight loss be investigated and documented by a letter from the qualified scientist, direct supervisor or a veterinarian. If applicable, attach this letter with this form when submitting your paperwork to the SRC prior to competition.

To be completed by Local or Affiliate Fair Scientific Review Committee (SRC) BEFORE experimentation.

Level of Supervision Required for agricultural, behavioral or nutritional studies (select one):

- ☐ Direct Supervisor REQUIRED. Please have applicable person sign below.
- ☐ Veterinarian and Direct Supervisor REQUIRED. Please have applicable persons sign below.
- ☐ Veterinarian, Direct Supervisor and Qualified Scientist REQUIRED. Please have applicable persons sign below and have the Qualified Scientist complete Form (2).

The SRC has carefully reviewed this study and finds it is an appropriate study that may be conducted in a non-regulated research site.

Local or affiliate fair SRC pre-approval signature:

SRC Chair Printed Name _____ Signatur _____ Date of Approval (must be prior to experimentation) (mm/dd/yy) _____

ALL signatures must be dated **BEFORE** the "Actual Start Date" on Form 1A.

To be completed by Veterinarian:

- ☐ I have reviewed this research and animal husbandry with the student before the start of experimentation.
- ☐ I have approved the use and dosages of prescription drugs and/or nutritional supplements.
- ☐ I will provide veterinary medical and nursing care in case of illness or emergency. (Fees may apply.)

Printed Name _____ Email/Phone _____

Signature _____ Date of Approval (mm/dd/yy) _____

leted by Direct Supervisor or Qualified Scientist when applicable:

- ☐ I have reviewed this research and animal husbandry with the student before the start of experimentation and I accept primary responsibility for the care and handling of the animals in this project.
- ☐ I will directly supervise the experiment.

Printed Name _____ Email/Phone _____

Signature _____ Date of Approval (mm/dd/yy) _____

Actual signatures are required. Adobe e-signatures are acceptable. However, typed names will not be accepted in place of a signature.

Vertebrate Animal Form (5B)

equired for all research involving vertebrate animals that is conducted at a RRI. EFORE experimentation. This form must be completed and signed AFTER experimentation.)

Student's Name(s) _____

Title of Project _____

Title and Protocol Number of ~~IACUC Approved Project~~ _____

You MUST attach a copy of the actual IACUC form with the protocol number.

To be completed by Qualified Scientist or Principal Investigator:

1. Species of animals used: _____ Number of animals used: _____

2. Describe, in detail, the role of the student in this project: animal procedures and related equipment that were involved, oversight provided and safety precautions employed. (Attach extra pages if necessary.)

3. Was there any weight loss or death of any animal? If yes, attach a letter obtained from the qualified scientist, direct supervisor or a veterinarian documenting the situation and the results of the investigation.

4. Did the student's project also involve the use of tissues?
   - ☐ No
   - ☐ Yes; complete Forms 6A and 6B

Make sure they got these!

5. What laboratory training, including dates, was provided to the student?

6. **Attach a copy of the Regulated Research Institution IACUC Approval.** A letter from the Qualified Scientist or Principal Investigator is not sufficient.

Qualified Scientist/Principal Investigator

This must be dated **AFTER** the "End Date" on Form 1A.

Printed Name _____

Signature _____ Date (mm/dd/yy) _____

Potentially Hazardous Biological Agents Risk Assessment Form (6A)

This form is required for all research involving microorganisms, rDNA, fresh/frozen tissue, blood, blood products and body fluids. SRC/IACUC/IBC approval is required BEFORE experimentation.

Student's Name(s)_____

Title of Project _____

To be completed by the QUALIFIED SCIENTIST/DIRECT SUPERVISOR in collaboration with the student researcher(s). All questions are applicable and must be answered; additional page(s) may be attached.

SECTION 1: PROJECT ASSESSMENT

1. Identify potentially hazardous biological agents (PHBA) to be used in this experiment. Include the strain, source, quantity and the biosafety level risk group of each microorganism or tissue.

Local SRC signature is no longer required on Form 6A. However the local SRC must review this form and the research plan prior to signing Form 1B, section 2A.

2. Please indicate the BSL level of the experimentation site:

   ☐ None ☐ BSL-1 ☐ BSL-2

   If BSL-2 laboratory, not at an RRI, include the **BSL-2 checklist**

3. Describe the precautions that will be used to minimize risk.

4. Describe the method of disposal of all cultured materials and other potentially hazardous biological agents.

SECTION 2: TRAINING

1. What training will the student receive for this project?

2. Experience/training of Direct Supervisor as it relates to the student's area of research (if applicable).

SECTION 3: For ALL CELL LINES, MICROORGANISMS AND TISSUES – To be completed by the QUALIFIED SCIENTIST or Direct Supervisor - Check the appropriate box(es) below:

☐ Experimentation on the microorganisms/cell lines/tissues to be used in this study will NOT be conducted at a Regulated Research Institution, but will be conducted at a (check one) __BSL-1 or __BSL-2 laboratory (include a copy of the **checklist for BSL-2**. [This study has been reviewed by the local SRC and the procedures have been approved prior to experimentation.]

☐ This project involves the culturing of Multi Drug Resistant Organisms (MDROs). It has been conducted in a BSL-2 or higher lab at a Regulated Research Institution and the required IBC pre-approval is attached.
Date of IBC approval _____

☐ Experimentation on the microorganisms/cell lines/tissues to be used in this study will be conducted at a Regulated Research Institution and was approved by the appropriate institutional board prior to experimentation; institutional approval forms are attached.
Origin of cell lines:_____ Date of IRC/IBC/IACUC approval _____

☐ Experimentation on the microorganisms/cell lines/tissues to be used will be conducted at a Regulated Research Institution, which does n his type of study.

This is the person who monitored the student's experimentation (usually the teacher).

This must be dated **BEFORE** the "Actual Start Date" on Form 1A.

CERTIFICATION – To NTIST or Direct Supervisor

The QS/DS has seen this project's research plan and supporting documentation and acknowledges the accuracy of the information provided above. This study has been approved as a (check one) ☐ BSL-1/ ☐ BSL-2 study, and will be conducted in an appropriate laboratory.

QS/DS Printed Name Signature Date of review (mm/dd/yy)

Human and Vertebrate Animal Tissue Form (6B)

This form is required for research involving fresh/frozen tissue (including human and/or vertebrate animal established cell lines and tissue culture collections), blood, blood products and body fluids. All projects using any tissue listed above must also complete Form 6A. This form must be completed by the QS/DS BEFORE experimentation.

Student's Name(s) _____

Title of Project _____

Actual signatures are required. Adobe e-signatures are acceptable. However, typed names will not be accepted in place of a signature.

To be completed by Student Researcher(s):

1. What vertebrate animal tissue will be used in this study? Check all that apply.
   - ☐ Fresh or frozen tissue sample
   - ☐ Fresh organ or other body part
   - ☐ Blood
   - ☐ Body fluids
   - ☐ Primary cell/tissue cultures
   - ☐ Human or other primate established cell lines
   - ☐ Vertebrate established cell lines
   - ☐ Exempt tissue (describe):

New options 2027

2. Where will the above tissue(s) be obtained? If using an established cell line include source and catalog number.

3. If the tissue will be obtained from a vertebrate animal study conducted at a research institution attach a copy of the IACUC certification with the name of the research institution, the title of the study, the IACUC approval number and date. If human tissues were used, attach a copy of IRB approval.

To be completed by the Qualified Scientist or Direct Supervisor:

☐ I verify that the student will work solely with de-identified organs, tissues, cultures or cells that will be supplied to him/her by myself or qualified personnel from the laboratory; and that if vertebrate animals were euthanized they were euthanized for a purpose other than the student's research.

AND/OR

☐ I certify that the blood, blood products, tissues or body fluids in this project will be h… standards and guidance set forth in U.S. Occupational Safety and Health Act, 29CFR… Pathogens.

This must be dated **BEFORE** the "Actual Start Date" on Form 1A.

Printed Name _____ Signature _____ Date of Approval (mm/dd/yy) (Must be prior to experimentation.) _____

Title _____ Phone/Email _____

Institution _____

Continuation/Research Progression Projects Form (7)

This form is required for projects that are a continuation/progression in the same field of study as a previous project.
This form must be accompanied by the previous year's abstract and Research Plan/Project Addendum.
This form may be completed AFTER experimentation.

Student's Name(s) _____

To be completed by Student Researcher: List all components of the current project that make it new and different from previous research. The current years project should be compared to the immediate previous year (ie. Year 1 to Year 2, Year 2 to Year 3, etc.).

Components	Current Research Project	Previous Research Project: Year: _____
1. Title		
2. Change in goal/ purpose/objective		
3. Changes in methodology		
4. Variable studied		
5. Additional changes		

Continuation projects **MUST** include this form. For the immediately prior year, researcher **MUST** attach BOTH the prior year's Abstract and Research Plan. For any years farther back, the researcher MUST include the Abstract for each additional prior year's work.

A continuation project is one that is built off of work previously performed. Students must show that they are testing a new variable or line of investigation.

Current Year Projects can only present data collected within a 12 month period and not started prior to January 2026.

Attached are:
- ☐ Previous year's Abstract and Research Plan/Project Addendum, Year _____
- ☐ Previous Form 7s, if applicable.

This must be dated **BEFORE** the "Actual Start Date" on Form 1A.

I hereby certify that the above information is correct and that the current year Abstract & Certification and project display board properly reflect work done only in the current year.
